Re: Bad River tailored WQS		04/27/2000 10:06 AM	

Document Body

Congratulations!!!

I am in conference calls most of this day, however I will work until 5:00 to get your changes in. Dave Pfeifer is here tomorrow morning and said he would be willing to finish it if I don't get the chance. I'll try to keep you updated about what goes on with these standards.

Gotta go. Talk to you later.

Kathy

Subject: Bad River tailored WQS

Kathy,

Council voted to submit our latest draft (some small changes from the one you last saw). The meeting went very well, with some very good discussion.

I was never able to get the full document with the ammonia equations in electronic form. It must be something about converting between word and word perfect. Please put those back in.

If you have any problems, as you have a half day, please call me immediately and have me interrupted. We are doing interviews today for GIS position, but this takes priority. Just e-mail me quick if everything works fine.

Thanks for everything, lets hope this option works.
